

Rechenkreuze:

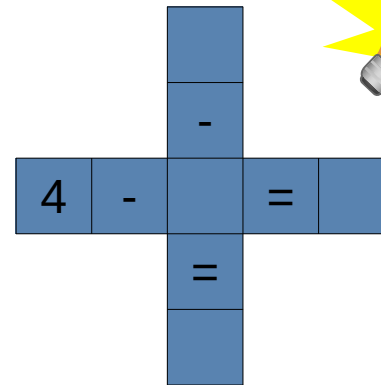

Fülle in die leeren Kästchen je eine Zahl von 1 bis 5, so dass die Rechenaufgaben richtig sind.
In den Rechenkreuzen darf keine Zahl doppelt vorkommen.

A yellow cross-shaped math puzzle. The vertical column has four cells: an empty cell at the top, a '+' sign in the second cell, an empty cell in the third cell, and an '=' sign in the fourth cell. The horizontal row has five cells: an empty cell on the left, a '+' sign in the second cell, an empty cell in the third cell, an '=' sign in the fourth cell, and the number '3' in the fifth cell.

A red cross-shaped math puzzle. The vertical column has four cells: an empty cell at the top, a '+' sign in the second cell, an empty cell in the third cell, and an '=' sign in the fourth cell. The horizontal row has five cells: an empty cell on the left, a '+' sign in the second cell, an empty cell in the third cell, an '=' sign in the fourth cell, and the number '4' in the fifth cell.

A blue cross-shaped math puzzle. The vertical column has four cells: an empty cell at the top, a '-' sign in the second cell, an empty cell in the third cell, and an '=' sign in the fourth cell. The horizontal row has five cells: the number '4' on the left, a '-' sign in the second cell, an empty cell in the third cell, an '=' sign in the fourth cell, and an empty cell on the right.

Die **Lösung** bekommst du als E-Mail zugesendet, wenn du uns eine kurze Mail mit deinem Namen
Und deiner Klasse schickst an: mach.mit.gsids@kjw.de
